

CARING FOR OUR WATERSHEDS™

Central Alberta

Growing the next generation.®

How it works

Answer the question:

What can you do to improve your watershed?

- * Independently, or as a team of no more than four, identify an environmental concern that impacts your watershed.
- * **Come up with a solution to address the concern.** Discuss your idea with your parents, teachers, friends and local experts.
- * Research your idea and **explain it in an approximately 1,000 word proposal.** Include visuals (videos, models, graphics etc). **Be creative!**
- * Proposal guidelines can be found at **CaringForOurWatersheds.com**
- * Entries are judged on **innovation, environmental impact, comprehensive scope, communication, budget, realistic solution and visuals.**
- * Go to **CaringForOurWatersheds.com** and register your team. If you do not have web access, contact your local Program Coordinator for a paper registration form. Entries must be delivered by mail or submitted online no later than the **contest deadline: May 11, 2011**
- * **Finalists will be selected to make a five minute verbal presentation** to a panel of judges and a public audience. Finalists' entries may be displayed in your community.
- * **All students are encouraged to implement their ideas.**
- * **You can win rewards for yourself and your school!**

Turn your ideas
into solutions.

CARING FOR OUR WATERSHEDS™ Central Alberta

This program is brought to you by:

With support from community partners:

**Augustana Faculty,
University of Alberta**

**Red Deer River
Watershed Alliance**

**North Saskatchewan
Watershed Alliance**

**Beaver River
Watershed Alliance**

**Athabasca River
Watershed Alliance**

Cows and Fish

**CARING FOR OUR
WATERSHEDS:
Central Alberta**

is open to students who live in the Alberta borders north of the City of Calgary.

Students who live in and south of Calgary are asked to enter **CARING FOR OUR WATERSHEDS:** Southern Alberta.

By joining the **CARING FOR OUR WATERSHEDS** program you take a stand for the environment. You join students from all over the world who want their voice to be heard. We all need to work together to ensure our watersheds are healthy.

Students will compete for \$7,100 in awards
